

2010 Spring Pond Start Up

Spring is quickly approaching and it's time to start thinking about having your pond started back up and/or cleaned out. Why not let Frontier Ponds handle the dirty work for you! The following services will be performed:

We will:

- Drain the pond.
- Gently net the fish and place them in a salt bath, in a separate aerated container, out of direct sunlight.
- Power wash the rock, gravel, filter mats, and lava rocks. We will clean and check all lights.
- Add dechlorinator to the water to neutralize the chlorine and ammonia.
- Reinstall the pump and fill the pond with fresh water (supplied by the homeowner's hose).
- Return fish to pond and salt the pond.

Options available at an additional cost:

- Replace lava rocks with Bioballs. The Bioballs have more surface area for good bacteria to form and will not decompose like the lava rock over time. Call for pricing due to the size of your Biofalls.
- Now would be a good time to replace all light bulbs at a cost of \$7.00 each.

In an ongoing effort to go green; replace your existing light fixtures with new LED light fixtures. They are just as bright, smaller and use less energy! Call for pricing.

- If you need any mulch, stone, water treatments, filter pads or anything else from the Aquatic Center, let us know and we can bring it with us.

Start-up/ Clean-out Cost:

- This is difficult to give an exact cost, but we try to clean your pond as cost-effectively as possible. Each pond is different and has many variables that influence the time it takes to clean-such as size, when it was last cleaned and seasonal effects.
- We have a \$75 service fee, plus \$60 per man hour of labor required to start-up/clean-out your pond.
- An average clean-out is approximately \$350 to \$600 for the average 11'x 16' pond.

When:

- We will start in April, weather permitting and continue thru the end of May 2010.

Pondless Waterfall clean-out: Power wash rocks & filter pads, remove pump and clean out any debris that might be in the bottom of the Pondless basin. Reinstall pump and top off water in the basin. We will clean and check all lights. Now would be a good time to replace light bulbs or switch to LED lights.

Please fill out the information requested below and return the form along with a deposit check for \$75.00, to schedule your pond start up this spring. Want to pay using your credit card, then circle credit card payment, return the form and we will call you to obtain your credit card information for security purposes. You can also call or email your request for your pond start up.

You will receive a confirmation of your request either by phone or email.
